LED power packages

by brennenstuhl®

Unique illumination for workshops using our LED rechargeable hand lamps.

As a trader in car accessories, you know that: LED rechargeable hand lamps are not only environmentally friendly but also compact, handy and provide excellent light performance for every dark corner.

With the brennenstuhl® LED hand lamp range for workshops, you can additionally offer special extras as required. For example, you can inspire your customers

with the major increase in light provided by the new generation of LED rechargeable hand lamps. Integrated magnets that attach directly to the bodywork, and a practical folding function for optimal illumination of surfaces and working areas provide unbeatable advantages. Thanks to integrated Li-ion batteries, they are mains-independent and tough.

We're not hiding our light under a bushel...

... as it provides up to 350 Lumen of light even in dark and winding work areas.

6 + 1 LED Battery-Operated Multi-Function Light HL DA 61 M3H2

Easy to use, robust and versatile.

- 6 super bright SMD LEDs on the front give up to 3 hours of light when fully charged.
- Additional switching stage for a SMD LED light in the head.
- Charging time about 4 hours.
- Rubber-clad housing.
- Folding stand moves 170° and has an integrated magnet.
- Two magnets additionally on the back and two 360° rotating hooks for flexible use.
- Integrated Li-ion battery 3.7 V / 2.1 Ah with charging indicator.
- Inclusive 100 - 240 V AC, 50 / 60 Hz charger and 12 V charger for car cigarette lighter.
- With ON / OFF switch.
- In blister packaging.

NEW

Article No.	EAN-Code	UP	LEDs	Luminous flux	Colour temperature	Light duration	Measurements	
1 17545 0	628278	1	6 SMD + 1 SMD	350 + 80 lm	6.000 K	3/7 h	25 x 5 x 4 cm	Euro-Plug
1 17545 3	628926	1	6 SMD + 1 SMD	350 + 80 lm	6.000 K	3/7 h	25 x 5 x 4 cm	BS-Plug 240 V

Our folding trick...

... is anything but mean when it comes to light output and thanks to its hinge can illuminate surfaces and working areas when both light elements are used.

10 + 1 LED Battery Mini Lamp HL DA 101 M

Extremely small and handy, high light output.

- 10 super bright SMD LEDs on the front with an operating time of up to 2 hours with fully charged batteries.
- Additional switching stage for a SMD LED light in the head.
- Charging time about 4 hours.
- Rubber-clad housing.
- Integrated magnet on the rear.
- Integrated Li-ion battery 3.7 V/1.2 Ah with charging indicator.
- Inclusive 100 - 240 V AC, 50/60 Hz charger and 12 - 24 V charger for car cigarette lighter, USB charging interface.
- With ON/OFF switch.
- In blister packaging.

NEW

Article No.	EAN-Code	UP	LEDs	Luminous flux	Colour temperature	Light duration	Measurements	
1 17563 0	629381	1	10 SMD + 1 SMD	300 + 50 lm	6.000 K	2/4 h	26 x 3 x 2 cm	Euro-Plug

8 + 5 LED Akku Hand Lamp HL DA 85 M

Compact, practical and versatile with excellent light.

- 8 super bright Seoul SMD LEDs on front with up to 3 hours of light when fully charged.
- Additional switching stage for 5 CREE LEDs in the luminaire.
- Charging time about 2.5 hours.
- Rubber-clad housing.
- Metal bracket on the light head and magnet on the bottom for flexible use.
- Light bendable to 120° forward and backward.
- Integrated Li-ion battery 3.7 V / 1.2 Ah with charging indicator.
- Inclusive 100 - 240 V AC, 50 / 60 Hz charger and 12 - 24 V charger for car cigarette lighter.
- Separate On / Off switch for LEDs in the front and bottom.
- In blister packaging.

SMD LED Automotive & Workshop Rechargeable Light SGF DA 96 S IP 54

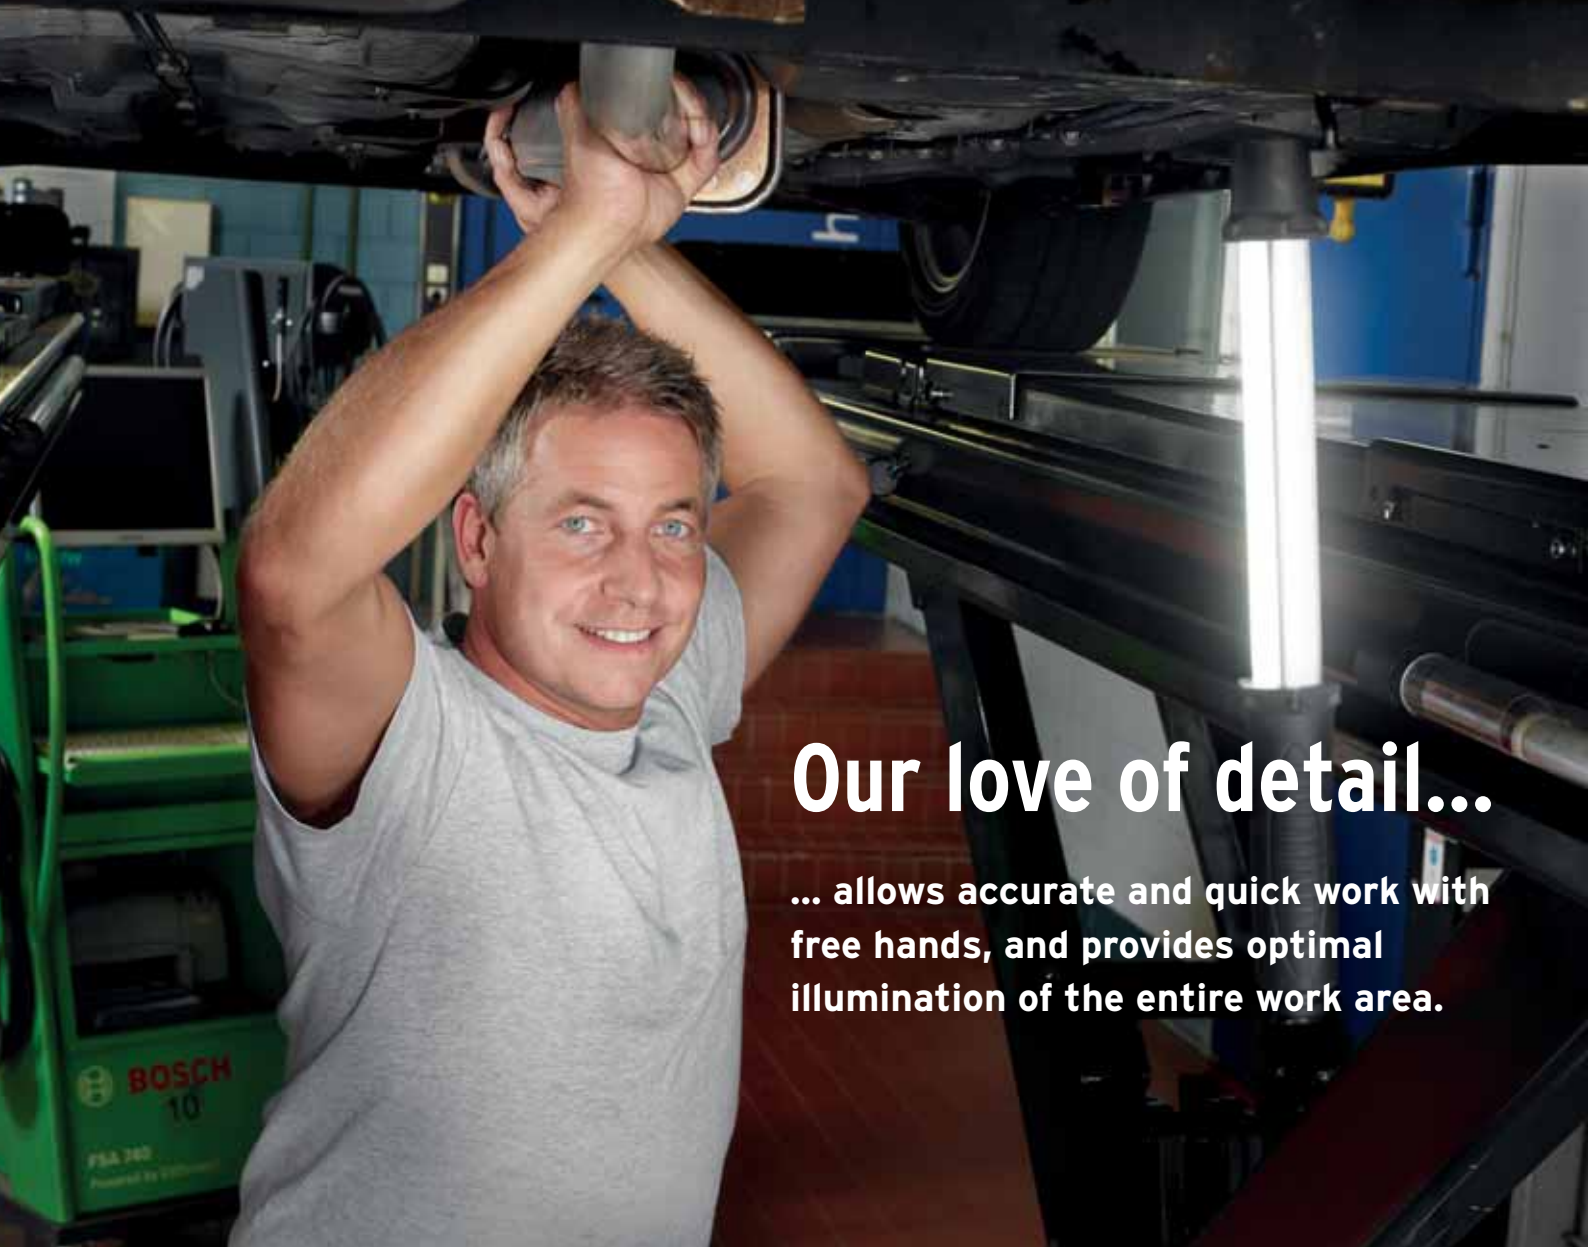

LED Light for vehicle garage with switch and quick clamp device.
Dust protected and splash-water-proved, IP 54.

- Ideal for inspections, repairs etc. and in vehicles.
- With quick release for flexible fitting, clamping range between about 105 - 170 cm.
- 96 bright SMD LEDs with extremely long lifespan.
- Robust, ergonomically formed handle with 6 ribs to stop it against rolling away.
- Sturdy, swivel hook.
- Shock and impact-resistant protective tube with anti-glare shield.
- With built-in Li-ion battery 3.7 V / 4 Ah, charging time approx. 4 hours, operating time approx. 2,5 hours with built-in overcharging and deep discharge protection.
- Inclusive 100 - 240 V AC, 50 / 60 Hz charger and 12 - 24 V charger for car cigarette lighter.
- In colourful display-packaging.

NEW

Article No.	EAN-Code	UP	LEDs	Luminous flux	Colour temperature	Light duration	Measurements

Our love of detail...

... allows accurate and quick work with free hands, and provides optimal illumination of the entire work area.

LED Workshop Rechargeable Light SHL DA 54 S IP 54

Flexible use with excellent light and switch.

Dust protected and splash-proof, IP 54.

- Ideal for workshops or when working on your hobby.
- 54 bright SMD LEDs with extremely long lifespan.
- Robust, ergonomically formed handle with 6 ribs to stop it against rolling away.
- Sturdy, swivel hook.
- Impact and break-proof protective tube with glare protection.
- With built-in Li-ion battery 3.7 V / 3 Ah, charging time approx. 3 hours, operating time approx. 3 hours with built-in overcharging and deep discharge protection.
- Inclusive 100 - 240 V AC, 50 / 60 Hz charger and 12 - 24 V charger for car cigarette lighter.
- In blister packaging.

www.brennenstuhl.com

Extremely versatile!

Attractive extras

Lights with magnets can be fixed to metallic surfaces, so that both hands are free for working.

No bend in the optic

Bendable joints allow pinpoint lighting of the workspace.

Particularly enduring

LED lights convince with extraordinarily low energy consumption and long battery lives.
